

SPECTACULAR TSAVO

AFRICA'S LEADING
TENTED CAMP, 2022

"It's quite difficult to portray the magic of Tsavo in just a few words... it really grips your soul. Tremendous contrast everywhere. Tsavo, in fact, has a greater biodiversity than any other place on earth. The more you know about nature, the more you can learn."

- Dr. Dame Daphne Sheldrick

LAVA FLOWS,VOLCANOES, CLOUD FORESTS & MORE

Tsavo is Kenya's oldest and largest national park. Given its sheer enormity and its unique eco-system, it has a very diverse landscape. From the cloud forest on the Chyulu Hills, semi arid scrub, volcanic lava fields, Jurassic age granite monoliths, the cliffs of the Yatta plateau, wildlife attractions including the largest population of red elephants in East Africa, over 500 bird species and some of the best views of Mt. Kilimanjaro's peaks, one can spend days and days and barely scratch the surface of what Tsavo has to offer.

Let Finch Hattons guide your senses and introduce you to a wondrous world you will never want to leave.

Mountain climbing and bird watching can be enjoyed in this hidden part of paradise, not to mention the incredible cloud forests.
